Newly built penthouse with lovely terrace in Palma

This is a project recently completed by an experienced builder, close to the sought after area of Santa Catalina, just a stone's throw from Club Nautico and the colorful market. They have managed to create an elegant and modern building that still manages to maintain its Mediterranean style. There are a total of 3 apartments in the building and this one is located on the third floor.

The apartment is built on two floors and has a total living area of 78m² and its own private roof terrace of 26m². On the first floor you will find 2 bedrooms, 2 bathrooms and a living room with combined kitchen, which takes one directly out to the balcony. On the second floor there is a bedroom / living room with direct access to the private roof terrace. Here it is pre-installed for a possible outdoor kitchen. This apartment is a great choice for those who want to enjoy city life to the full, with all that means in terms of restaurants, cafes, shops and other amenities, within walking distance, but at the same time only 10 minutes drive to nearby beautiful beaches.

Additional information: Air conditioning (Hot / Cold), heating, elevator, double glazing and underfloor heating in the whole apartment.
