Top sea view apartment in Palma

Located in the highest building in Palma, this apartment has been recently renovated with a discerning eye for detail and style. Its convenient location just a few steps away from Paseo Mallorca allows easy access to some of the city's best restaurants and shops. It has two luxurious bedrooms, each with an en suite bathroom, that are very quiet. There is an airy open-concept kitchen with dining area, a living room with fireplace, and a generous terrace with sweeping vistas that span the city, sea, mountains, and Cathedral. This home is a true oasis of comfort and elegance. A radiant south-eastern orientation means that sunshine illuminates every corner of this space all day long. The renovation employed only the finest, most durable materials, including a sleek Porcelanosa kitchen, high-end Miele and Bora appliances, elegant Artemide spotlights, and top-quality Cortizo windows.

Additional features: air conditioning hot/cold, laundry room, a fireplace, underground parking, electric blinds, pre-installed gas lines, a cutting-edge domotic system, and a state-of-the-art Bang & Olufsen sound system.
