Unique project of four apartments in Esporles

We are proud to present this unique project from a renowned architect, in the lovely village of Esporles. Esporles is a charming and authentic Majorcan village, immersed by the Tramuntana mountains, not far from the coast, and only 25 minutes' drive to Palma. The village has a very genuine atmosphere, surrounded by vineyards, olive- and orange trees, mountains and beautiful hiking paths. It is actually not easy to find an apartment here, while most properties are townhouses and houses. Therefore, this project is unique, offering four stylish apartments to an affordable price.

The properties offer high quality materials, stylish design, overall, a beautiful concept for the modern life in a tranquil atmosphere close to nature. The constructed areas range from 110-150 m², while the net living areas are between 89 and 127 m². All four properties offer different terrace areas, and the interiors have an open plan layout with bright living room and kitchen. There are two apartments with 3 bedrooms and 2 bathrooms, one on the ground floor and the other is on the first floor:

1st floor apartment: 110 m² living area, 3 bedrooms, 16 m² terrace, 365000 Euros.

More information about ground floor apartments: MFP057A

Additional information: air conditioning, heating, double glazing. There is an option to add a storage room and a garage space in the basement for an additional 30000 Euros.
