This beautiful and exclusive project is under construction in the heart of Palma. It has state-of-the-art architecture and is in a unique location, between the neighborhoods of Santa Catalina and Son Espanyolet, the liveliest areas of Palma. Bustling streets filled of boutiques and restaurants. Innovating and cutting-edge studios, showrooms, and pop-up stores. It's ideal for those who want to live close to the sea and to the city. This project consists of a thoughtful design combined with elegance that is within the reach of few. This is the place to enjoy the Mediterranean lifestyle.

A German developer is behind the project which combines Mediterranean interior living with functional design and a high German quality standard. There will be 25 apartments 3 of which are luxury penthouses, with two large private sun-drenched terraces. Here you will find privacy despite that you are in a residential complex. Furthermore, the complex will have two impressive common areas that provide both health and serenity with different surroundings. A pool with sun bathing solarium, and garden area with Mediterranean features and trees, all to offer you leisure and tranquility. But also, energy and vitality in the bright community fitness and gym area that has windows looking onto the pool. This is comfort embodied in luxurious residential services! From the spacious entrance hall, you can access to your home in one of its two elevators or approach the large parking lot that is on two levels, with spaces for bicycles and storage (to be purchased separately). Because design is luxury and practicality.

The apartments will have detailed design with magnificent qualities and noble materials to offer you comfort, pleasure and wellness. All flats have a compact and open-plan space with optimized layouts. Large windows to enjoy natural light and the Mediterranean breeze in three different, carefully chosen finishes.
